

Playing Baseball

Contributed by joe Wunschseo

The great american past-time is baseball, which is a very cool sport which I think every child should at least try one time in their life to see if they like it. I recently purchased my son some new baseball equipment so that he can practice and plus for some good bonding time when I play with him and help train him to get better. He is still in that stage where he is convinced he is going to be a professional, but I am trying to explain to him that he would have a better chance at getting hit by lightning twice on the same day. I purchased him a baseball bat cage and a pair of nike batting gloves to go with it. You should have seen the look on his face when he drove up and saw it all hooked up in the backyard. That made it worth every single penny.
